P14310

Wall Mount Set
915mm Mill

4-wheel carriage with lubricated ball bearings ensure smooth and maintenance-free operation

4mm lateral adjustment slots in wheel assembly bracket

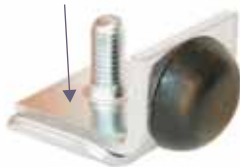

Wall mount track with V-groove for ease of drilling

Enclosed track prevents the door from lifting off

10mm height adjustment lock nut offers simple and secure door installation

Anti-bounce door stop minimises the effects of slamming

Nylon door guide slimline and unobtrusive

Top mount track with V-groove for ease of drilling

Benefits of Enclosed Track Systems

- Offer greater door security by preventing doors from being dislodged from the track
- Run smoother due to resistance of excessive dust
- Aesthetically pleasing as they conceal the wheel assemblies
- Run quieter
- Easy to install and adjust

Includes installation instructions and all fixing screws

* Also available in pelmeted side fix option: "ForeRunner Pelmet"

- P16010** 915mm Mill
