 WALL MOUNT APPLICATION INCORPORATING A BUILT-IN PELMET  
 FOR DOORS TO 915mm AND 1220mm WIDE  
**MILL FINISH AND WHITE**

Wall mount track with V-groove for ease of drilling

Pre-punched elongated holes for easy fitting & adjustment

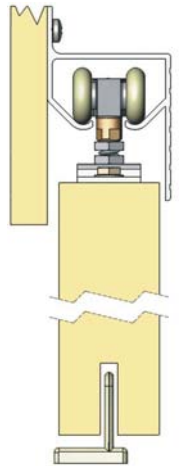

Enclosed track prevents the door from lifting off

**NEW!** 4-wheel carriage with lubricated ball bearings ensures smooth and maintenance-free operation

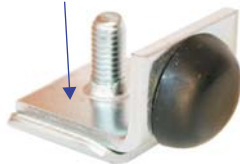

4mm lateral adjustment slots in wheel assembly bracket

10mm height adjustment lock nut offers simple and secure door installation

Ribbed face for added visual appeal

Anti-bounce door stop minimises the effects of slamming

Wall mount track in powder coat White and fitted with end caps

Nylon door guide slimline and unobtrusive

Push-in nylon end cap gives the complete finish

#### Benefits of Enclosed Track Systems

- Offer greater door security by preventing doors from being dislodged from the track
- Run smoother due to resistance of excessive dust
- Aesthetically pleasing as they conceal the wheel assemblies
- Run quieter
- Easy to install and adjust

Includes installation instructions and all fixing screws
