

MILLENNIUM GONDOLA SYSTEM

MILLENNIUM GONDOLA SYSTEM SET UP

The Cowdroy Gondola System is suitable for many retail and trade applications including supermarkets, pharmacies, specialty stores, hardware stores, auto spare part stores, convenience stores, duty free shops, service stations and newsagencies to name a few.

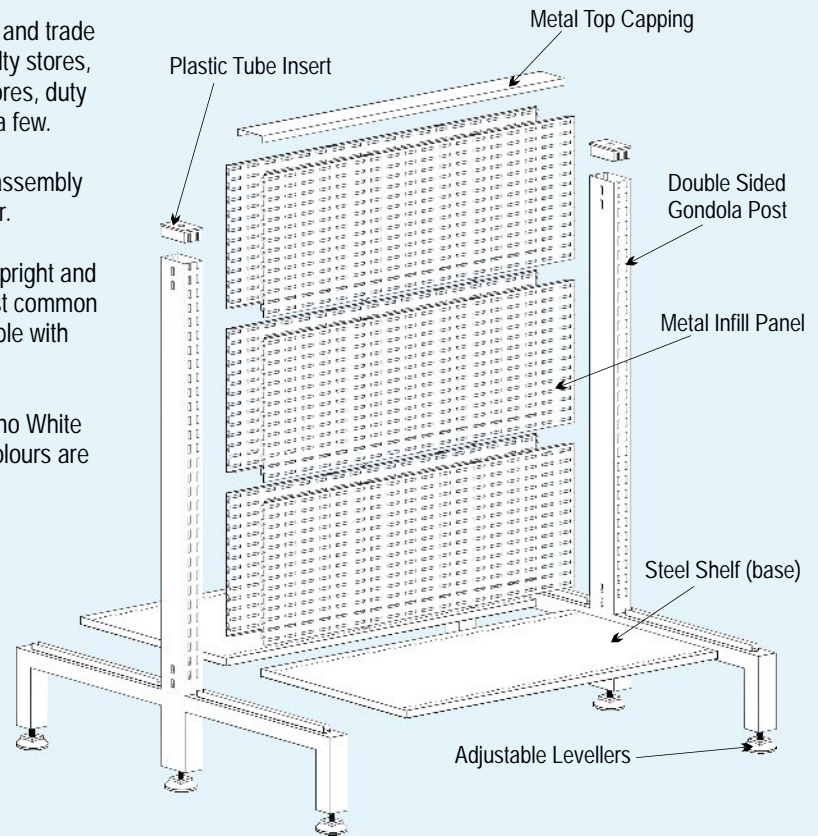

Cowdroy Gondolas are supplied in components for DIY assembly and require no fixing hardware - they simply lock together.

The robust posts incorporate a 50 x 32mm slotted tube upright and 32 x 32mm tube legs. Slotting is at 40mm pitch - the most common pitch in the Australian shopfitting industry and is compatible with many other systems in the market.

The system is pre-finished in durable powder coat - Merino White in colour (unless otherwise stated). Other powder coat colours are available on request.

Also available for the Cowdroy Gondola System is a wide range of gondola accessories including steel shelves, wire fronts and dividers, wire dump baskets, component bins, hooks, blouse arms and cross bars.

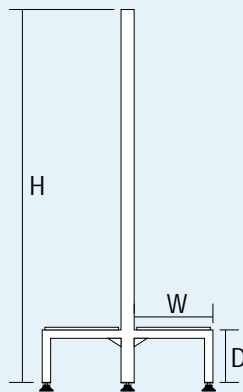

If you need assistance in sorting out your gondola requirements Cowdroy have design consultants ready to design, plan and implement your system with you.

POSTS - DOUBLE SIDED

CODE	DIMENSIONS		
	H	W	D
SF53010	1420	305	200
